**DEPARTMENT OF LABOR****Occupational Safety and Health  
Administration****[Docket No. ICR-99-5]****Proposed Information Collection  
Request Submitted for Public  
Comment and Recommendations; 29  
CFR Part 1904, Recording and  
Reporting Occupational Injuries and  
Illnesses (1218-0176)****ACTION:** Notice.

**SUMMARY:** The Department of Labor, as part of its continuing effort to reduce paperwork and respondent burden, conducts a pre-clearance consultation program to provide the general public and Federal agencies with an opportunity to comment on proposed and/or continuing collections of information in accordance with the

Paperwork Reduction Act of 1995 (PRA 95) (44 U.S.C. 3506(c)(2)(A)). This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and impact of collection requirements on respondents can be properly assessed. The Occupational Safety and Health Administration (OSHA) is soliciting comments concerning the proposed extension of approval for current paperwork requirements of 29 CFR part 1904, Recording and Reporting Occupational Injuries and Illnesses (less 1904.8, Reporting of Fatality or Multiple Hospitalization Incidents and 1904.17, Annual OSHA Injury and Illness Survey of Ten or More Employers). The Agency is in the process of revising these recordkeeping requirements and expects to implement a revised injury and illness recordkeeping system next year. However, if the Agency is unable to attain this goal, it will need to continue the current injury and illness recordkeeping system. For this reason, OSHA will request OMB reauthorization of the existing part 1904 under the PRA, and is asking for public comment on burden estimates, practical utility, and other paperwork issues concerning OSHA's existing recordkeeping requirements.

**DATES:** Written comments must be submitted on or before September 7, 1999.

Written comments should:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;
- Evaluate the accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

**ADDRESSES:** Comments are to be submitted to the Docket Office, Docket No. ICR-99-5, U.S. Department of Labor, Room N-2625, 200 Constitution Avenue, NW, Washington, DC 20210,
